

# 3<sup>rd</sup> NExT CBMmeeting

## NEW EXPERIMENTAL TRENDS AT CBM

Thursday January 27, 2022

9:20

Welcome. **LOURDES RUIZ DESVIAT / JAIME MILLÁN**

Chair: **JAIME MILLÁN**

9:30 – 10.15

**MANUEL PAZOS** (Interactions with the Environment)  
“Molecular and therapeutic basis of preseptal growth in gastrointestinal pathogens”

10:15 – 11.00

**CARLOS PEREA RESA** (Genome Dynamics and Function)  
“Transit through mitosis, a chance to rewire gene expression during development and response to stress”

11:00– 11.45

**LEONARDO BECCARI** (Tissue and Organ Homeostasis)  
“From Hox genes to neurogenesis: how enhancer activity and chromatin architecture coordinate developmental gene expression”

Break

12.15 – 13.15

**AURA CARREIRA** (Genome Dynamics and Function)  
“BRCA2: A model to understand mechanisms of genome integrity maintenance and cancer predisposition”

CENTRO DE BIOLOGÍA MOLECULAR SEVERO OCHOA

C/ Nicolás Cabrera, 1. Campus UAM  
28049 Madrid
